Map of Fun

This exhibition is a story of friendship – 12 years of it.

Similar to songs, poems are words that are composed together and it tells a story.

Our story can be seen as a map - there are a lot of colors, landscapes, travel, music and life.

Straight lines, forms, textures and shapes. All the things that make us who we are and how we get through the past 10 years.

The story of this exhibition is not linear but it's full of different parts of Karima and Marisa and how they get to today!
